Open House at the new SAMP

October 27 - 29, 2010
Bentivoglio (BO), Italy

Dear Sir or Madam,

Innovation is the most important element when competing with equipment manufacturers in low-wage countries. But innovation alone is not enough; it must be supported by reliable and efficient technology.

The new Technology Centre in Bentivoglio concentrates and manages the local activities in Europe, driving the technological innovation for our worldwide Group of companies, for all of our three divisions: gear manufacturing equipment, wire and cable solutions, as well as gears, components and special transmissions. On more than 60,000 square meters we test and produce technology systems that support you in your daily manufacturing tasks.

During our open house we have established a series of seminars to present new trends in the manufacturing world together with partners of excellence.

We are looking forward to seeing you in Bentivoglio ...

Antonio Maccaferri
President SAMP Group

Artemio Affaticati
CEO SAMP Group

we thank our partners for their support

Technology seminars
during the Open House

Wire production and cable extrusion
Gear manufacturing
Special drives

At a glance ...

energy friendly

Do not miss the chance!
The latest technology and future trends presented in comprehensive seminars about current topics.

World premiere!
HG 1200 invento gear roughing and finishing in one machine.

New enhanced G-H series gear grinding machines. Rail transport, windpower and aerospace applications on one machine.

We have moved!
Check out our new, state-of-the-art gear tool production.

Sampingranaggi gear manufacturing and special transmissions. See our brand-new Powerpacks™!

How to save more than just energy – the RBL rod breakdown machine in action.

Our improved solutions for the cable extrusion world – more reliable than ever. New medium and high voltage cable extrusion lines.

Extensive talks with our experts and partners. Please make arrangements as soon as possible.

Bring your family and enjoy an event programme around the city of Bologna and the Emilia Romagna region.

Programme

Wednesday, 27.10.2010

- 10:00 Welcome
SAMP, machine tools and gears since 1936
Antonio Maccaferri, President SAMP Group
- 10:20 Innovation networks
Gianni Lorenzoni, University of Bologna
- 10:40 TCO as major efficiency factor
Artemio Affaticati, CEO SAMP Group
- 11:00 Coffe break
- 11:20 Breakthrough technology – the new RBL
Roberto Bazzani, Division Manager Sampsistemi
- 11:40 Latest die technology for improved productivity
Jaume Cabrera, Sales Account Manager Esteves Group
- 12:00 Latest LV and MHV lines made in Bentivoglio
Michel Compagnon, Product Manager Sampsistemi
- 12:20 Latest measuring and control technologies for MHV lines
Holger Lieder, Sales Director SIKORA AG
- 12:40 Sampingranaggi Powerpacks™
Stefano Guermandi, Sales Manager Sampingranaggi & Artemio Affaticati, CEO SAMP Group
- from 14:00 Tour of SAMP Technology Centre
Exhibits, Test Stations, Manufacturing

Thursday, 28.10.2010

- 10:00 Welcome
Gaetano Maccaferri, President SECI, Holding of SAMP Group
- 10:20 Innovation networks
Luca Cordero di Montezemolo, President Ferrari
- 10:40 Complete manufacturing – from blank to gear
Dr. Bernhard Pause, Vice President Technology, MAG Europe GmbH
- 11:00 Coffe break
- 11:20 Modularity in gear grinding machines
Francesco Cocchi, Product Manager Samputensili
- 11:40 Game changer in the manufacturing of large gears
Christian Albrecht, CMO SAMP Group
- 12:00 China's march to the top / Adaptive strategies
Angelo Pescari, Managing Director, Samputensili Shanghai
- 12:20 Tool choices in the manufacturing of large gears
Stefano Guermandi, Sales Manager Sampingranaggi
- 12:40 New gear designs for windpower transmissions
Gabriele Bertacchi, R&D Tools, Samputensili
- from 14:00 Tour of SAMP Technology Centre
Exhibits, Test Stations, Manufacturing

Friday, 29.10.2010

We have reserved this day for business talks and special presentations.

A side programme within the Bologna area is available on all three days for you and accompanying colleagues or family members, featuring for example a medieval city tour, shopping possibilities and the chance to participate a typical Bolognese cooking class. Please let us know your plans as soon as possible since spaces are limited.

We kindly ask you to complete the form below so we can serve you the best possible way.

On all 3 days we serve at your leisure:

10:00 - 12:00 Coffee & morning snacks

13:00 - 15:00 Lunch buffet (Bolognese specialties or light lunch)

15:30 - 17:00 Coffee, tea and afternoon snacks

Yes, I (we) will come

with person(s) in total,
of which family members (side programme)

to the SAMP Open House on arrival time

Wednesday 27.10.2010 h

Thursday 28.10.2010 h

Friday 29.10.2010 h
